

New Draft Regulations for All Registered Men

All Exemptions Revoked By Government's Order

Every Man of Draft Age Not Already in Service Must Answer List of Questions and Be Classified to Determine Order of Call to Colors

Every registered man not already in military service is affected by the new draft regulations issued from the office of the provost marshal general yesterday. Unmarried men without dependent relatives make up the bulk of Class I, from which all the physically sound men will be drawn before calling to the colors any one from Classes II, III, IV or V.

The classification of men into these five groups to determine their priority for military service will begin about December 15. Local boards will then begin mailing to 5 per cent of the registrants each day the questionnaire, a sixteen-page pamphlet to be filled out by the registrant and returned to the local board within seven days.

The questionnaire, which is the basis of the new system, is a collection of questions bringing out the essential facts upon which the classifications are made. It is the only printed form which any registrant needs to use, either in making claims or filing proof.

The group of registrants within the jurisdiction of each local board is taken as the unit to be classified. Within each class the order of liability is determined by the drawing, which has hitherto assigned to every man an order of availability for military service relative to all men not permanently or temporarily exempted or discharged. The effect of classification in Class I is to render every man so classified presently liable to military service in the order determined by the national drawing.

The effect of classification in Class II is to grant a temporary discharge from draft, effective until Class I in the jurisdiction of the same local board is exhausted. The effect of classification in Class III is to grant a temporary discharge from draft, effective until Classes I and II in the jurisdiction of the same local board are exhausted; and similarly, Class IV becomes liable only when Classes I, II and III are exhausted. The effect of classification in Class V is to grant exemption or discharge from draft.

The term "deferred classification" as used in these regulations is equivalent to the term "temporary discharge."

Registrants Must Keep Posted

In regard to mailing notices to registrants of duties they will be required to perform, it is provided that either the mailing or the entry of such date in the classification list shall constitute the giving of notice to the registrant and to all concerned, and shall charge the registrant and all concerned with notice of the day upon which such duty is to be performed or the beginning of the running of the time within which such duty must be performed or such right or privilege may be claimed, regardless of whether or not a mailed notice or questionnaire is actually received by the registrant or other person.

All registrants and other persons are required and strictly enjoined to examine from time to time the notice posted by the local board in its office showing the progress of the classification and the list of registrants, in order to be informed of the time for the performance of any duty or the exercise of any right or privilege, and it is the duty of every registrant concerning whom any notice is posted, but who for some reason has not received the questionnaire or notice, as the case may be, to apply to his local board for a copy thereof. Failure to receive notice or questionnaire will not excuse the registrant from performing any duty within the time limit, nor shall it be in itself ground for extension of time.

Failure to return the questionnaire to the local board filled out in accordance with instructions is a misdemeanor, punishable by fine or imprisonment for one year, and may result in the loss of valuable rights and in immediate induction into military service.

All registrants, except enemy aliens, who fail to return the questionnaire waive their claims to deferred classification and are recorded in Class I.

Claims for Exemption

All claims for exemption or for deferred classification are to be indicated on the first page of the questionnaire simply by placing a cross (X) opposite the division of each class that states the ground of claim.

The regulations provide further: "All exemptions and discharges made prior to the date of these rules and regulations, and all certificates in evidence thereof, are hereby revoked, and all such certificates heretofore issued shall have no further validity."

"In any case of deferred classification made under these rules and regulations, the Secretary of War may order such deferred classification, and any certificate issued in evidence thereof, to be revoked and rescinded, and the registrant to be transferred to any less deferred class designated by the Secretary, except only as to such registrants as have been placed in Class V on account of legal exemption."

In promulgating these rules of the War Department the President calls upon the whole legal profession of the United States to act as assistants of registrants in filling out their questionnaires. A place will be provided convenient to every local board where registrants may go for free advice and assistance in making out this document. The county judge or other judicial officer of similar court is placed at the head of a committee of lawyers in each vicinity, and this committee is charged with the duty of seeing that there are always plenty of lawyers and other volunteers present to help registrants in filling out the questionnaire.

2,000,000 Men To Be Called In First Class of New Draft

WASHINGTON, Nov. 14.—Best available estimates indicate the first of the five classes into which all draft registrants are to be divided will contain more than 2,000,000 men subject for duty with the colors before any man of any other class will be called up.

It is regarded as practically certain Congress will take up the question of extending the draft law to cover men who have attained the age of twenty-one since it was enacted. Should that be done and provisions made for the registration, thereafter, of every man as he reached that age, it is probable that perhaps 600,000 would be added to class No. 1 automatically by next March. In that event no present plans for the army would reach the men in class 2.

Officials have already considered the possibility that Congress would decide to take in these additional young men. Some fair system by which they may be placed in class 1 and assigned to duty will be devised. New regulations to be published shortly probably will set a way in which this can be done. New regulations governing passports for registered men become effective November 20. After that date the nearest local board may issue passport permits, without reference to district boards, as is now required. Passports are not necessary to enter Canada.

As the first step in the new classification of selected men, Provost Marshal General Crowder has directed local exemption boards to compile the information contained in their docket books and registration cards. The sheets will need for this work from three to five assistants, working from three days to two weeks, according to the size of the district.

The assistants must be volunteers. The first draft in New York City will be completed by December 1. Director Roger B. Wood announced last night. This will give the members of local boards fifteen days to lay plans for classifying the remaining men subjected to the draft, since the new questionnaires must be mailed to registrants on the middle of next month.

Mr. Wood added that he expected orders at once regarding the movement of the last 30 per cent of the men selected for the National Army in the first draft.

Provost Marshal General Crowder's new ruling, which will reduce the number of appeal cases to be reopened, will accelerate the arrangements to mobilize the last 11,000 men under the old selective system, according to Mr. Wood. The new order frees the draft machinery by limiting the time in which men already in the National Army can ask commanding officers to have their cases reopened to seven days after their induction, and limits the time in which men certified for service, but not yet mobilized, can appeal to the adjutant general to have their exemption claims reconsidered, to ten days from Tuesday, when the new instructions were issued. Mr. Wood pointed out:

"Because of the pressure of getting the last contingent of the first draft ready to go to Camp Upton draft officials in this city explained yesterday that they had been unable to do much planning for the second draft under the new classification system. Mr. Wood said that no official instructions regarding the new method of selecting men for service had reached him yet. It is understood, he said, that the personnel of the local boards and of the district board in this city will remain unchanged."

Meantime the lawyers of this city are organizing to meet President Wilson's appeal to the legal profession to assist registrants to answer the questions they will be asked under the new plan, which will record the order of availability for service of every man between the ages of twenty-one and thirty-one.

Henry W. Taft, chairman of the war committee of the Bar of the City of New York, which furnished lawyers to facilitate the operation of the first draft, said last night:

"I understand that it is proposed to have in each exemption district an advisory board of three lawyers to advise registrants as to their legal rights and the manner in which questions asked by the government are to be answered. The organization of such boards has been rendered much less difficult on account of the experience which the lawyers who served in the first draft have had, and it is probable that they will be used by the government as a foundation on which to build."

INSTRUCTIONS.—Every registrant must answer the first question. If he answers "yes," he must answer all the remaining questions, except as stated in the instructions, and must sign his name at the end. If the registrant claims deferred classification on account of engagement in industry, he must secure two supporting affidavits.

1. Are you engaged in an industrial enterprise necessary (1) to the maintenance of the military establishment, or (2) to the effective operation of the military force, or (3) to the maintenance of the national interests during the emergency?
- If your answer is "no," do not answer any other questions and do not sign your name.
- Are you an employee, or in business for yourself, or a partner?
- Do you claim deferred classification on the ground that you are engaged in such enterprise?
- State the nature of the enterprise.
- State the name under which the enterprise is conducted, and its exact location (postoffice address).
- What is produced by said enterprise?
- Do you give all your working time to said enterprise?
- If not, what do you do?
